

Blaser Magnum

TRUE POWER

In cooperation with Norma, Blaser has developed a brand-new and completely original generation of high-performance cartridges. The latest ammunition technology was applied to achieve optimum performance in each caliber group.

High accuracy with good shooting characteristics

High precision values in conjunction with notably increased energy and velocity data make the Blaser Magnum calibers your best choice for long-range shooting – whether you are hunting in the mountains, in the savanna or on a plateau.

Thanks to an optimized cartridge geometry, a stable cartridge base and modern powder types as well as the four-groove barrel profiles and adapted twist rates, the Blaser Magnum offers a more comfortable recoil than other Magnum cartridges.

Four calibers, six loads

The Blaser Magnum calibers are available with Hornady Interlock, Nosler AccuBond, Barnes TSX/TTSX and Blaser CDP bullets. Norma also offers additional loads under its own company label.
