ARGALI MEN'S

ARGALI

Hunting apparel at the highest level – this is the claim we aim to live up to with the ARGALI line. Its style is tailor-made for active hunters and tuned for performance: The ARGALI outfits are quiet, unbelievably comfortable and also withstand wind and weather. The natural colour scheme is also a must for these outfits.

Water-repellent

Waterproof

Windproof

Tough

Low noise level

Keeps warm

RAM WIND-LOCK

Protection from hypothermia is of great importance on the hunt, when phases of extreme physical activity alternate with ones of motionless waiting. RAM WIND-LOCK provides highly effective, breathable protection from the wind.

RAMBRANE

RAMBRANE is the highly effective functional membrane, specially developed for the hunt and for outdoor wildlife observation. It is waterproof, windproof, fully breathable and extremely tough and makes almost no noise. It regulates the climate on the skin, keeping it dry, even under severely wet conditions, together with extreme physical exertion. During phases of less activity, it provides thermal insulation.

RAMshell

RAMshell is based on a three layer system that combines weather protection with breathable comfort. When your body is moving, moisture is transported outwards, keeping your skin dry and your body warm.

RAMTEX

RAMTEX combines a sophisticated appearance with a character both robust, yet light. It appears as a decorative, reinforcing element in high-quality outdoor textiles and possesses the optical allure of suede leather.

The Teflon EcoElite™ finish is the sustainable further development of the classic Teflon finish. The impregnation is water-repellent, preserves the breathability of the outer fabric and thus offers utmost wearing comfort.

The individual fibres are encased in DuPont Teflon®, increasing the durability of the woven fabric. The finish on the outer fabric is water- and dirt-repellent.

Besides providing perfect thermal insulation, **PRIMALOFT®** is very quiet and water-repellent. Thanks to its low volume, it dries quickly and is thermally efficient. The new **PRIMALOFT® ThermoPlume** insulation has the look and feel of real down. The silky

soft, particularly lightweight tufts of fibre plumes provide excellent thermal properties. In wet cold the **PRIMALOFT® ThermoPlume** insulation plays to its strengths: It is water-repellent and thus also perfectly suitable for bad weather.
